

**TSUKUBA NANOTECH INNOVATION ARENA - TIA  
International Workshop  
Feb. 15th & 16th – Tsukuba, Japan.**

TIA-nano is a new research framework, lead by the *National Institute of Advanced Industrial Science and Technology (AIST)*, the *National Institute for Material Science (NIMS)* and the *National University of Tsukuba in Tsukuba Science City*.

The TIA-nano project is supported by both METI (Ministry of Economy) and MEXT (Ministry of Education, Culture, Sports, Science and Technology).

The aim of this workshop is to exchange and share views to improve the performance of global nanotechnology research centers, focusing how to manage R&D and its organization, and to make technical discussions on research subjects.

Global representatives of Albany CNSE of USA, IMEC of Belgium, MINATEC of France and Asian research centers are invited to the workshop.

**TIA – Panel**

**TIA – Programme**
