

EU - India Summit

An EU27 surplus in trade in goods with India of 2.1 bn euro in 2008

Surplus of 1.5 bn in trade in services

Between 2000 and 2008, **EU27** trade in goods with **India** more than doubled in value: exports rose from 13.7 billion euro to 31.6 bn, while imports increased from 12.8 bn to 29.5 bn. As a result, the **EU27** surplus in trade with **India** increased from 0.8 bn in 2000 to 2.1 bn in 2008. **India** accounted in 2008 for 2.4% of **EU27** exports and 1.9% of **EU27** imports, and was the **EU27**'s 10th most important trading partner.

In the first half of 2009 the value of **EU27** exports to **India** fell to 12.7 bn euro, compared with 15.7 bn in the first half of 2008, and imports decreased to 12.9 bn from 14.9 bn. As a result, the **EU27** trade balance with **India** moved from a surplus of 0.8 bn in the first half of 2008 to a deficit of 0.2 bn in the same period of 2009. It should be noted that the fall in the value of **EU27** trade with **India** recorded between the first half of 2008 and the first half of 2009 is in line with the general downward trend in the **EU27**'s total external trade over the same period.

On the occasion of the 10th **European Union - India** summit, which will take place on 6 November in **New Delhi**, **Eurostat, the Statistical Office of the European Communities**, issues data on trade and investments between **India** and the **EU**.

* Provisional data

1. Dutch imports and therefore the trade deficit are over-estimated because of the "Rotterdam effect" where goods destined for the rest of the EU arrive and are recorded in harmonised EU external trade statistics in Dutch ports. This then has a positive effect on the external trade balances with India of those Member States to which the goods are re-exported as these shipments would be recorded as intra-EU trade with the Netherlands rather than extra-EU trade with India.
2. **Machinery and vehicles** includes power generating and industrial machinery, computers, electric and electronic parts and equipment, road vehicles and parts, ships, airplanes and railway equipment.
Other manufactured goods include leather, rubber, wood, paper, textiles, metals, building fixtures and fittings, furniture, clothes, shoes and accessories, scientific instruments, clocks, watches and cameras.
3. **Other business services** comprise merchanting and other trade-related services, operational leasing services and miscellaneous business, professional and technical services.
